1:30 PM EDT **Special Presentation: Autosomal DNA projects** for Stiles family, presented by Debbie Stiles-Lusk and Penny Murray.

Stiles Autosomal DNA Projects have begun at two sites, FamilyTreeDNA and GEDMatch. Autosomal testing looks at DNA segments inherited from both male or female ancestors and can realistically look for relatives back to fifth cousins that share a common ancestor. Stiles family researchers who aren't descended along a male Stiles line now have the opportunity to participate in one or both of our new groups.

Whether you've already done an autosomal test or are considering taking one, you will want to tune in to the Zoom call to hear what Penny and Debbie are doing and how to join!
